GM GAURAV MOTION

INDEPENDENT FILM STUDIO

# Films for SaaS and product *brands.*

Explainers, UI motion and ads, with picture and sound made by one person. I'm Gaurav Ameta, a motion and sound designer. The person you speak to is the person making your film, from the first idea to the final mix.

## WHAT I MAKE

### EXPLAINERS & LAUNCH FILMS

Films that show how a SaaS product works and why it matters, for launches, feature releases and websites.

### UI MOTION

Interface animation and product walkthroughs that make software easy to understand.

### ADS & AI VISUALS

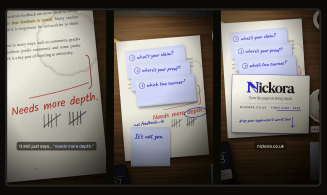

Short ads for social and paid media, with AI visuals where they fit the idea.

Sound design and the final mix come with every film.

## SELECTED FILMS

Nickora
Service explainer film

Nickora
2.5D parallax Meta ad

Choir
AI agent launch film

GuruSup
Ad film

## CLIENT

"Honestly, I wasn't sure how to explain what we do in a short video. Gaurav just got it. He sent it back in three days, and I didn't even have to ask for changes!"

Nick, Founder, Nickora · United Kingdom · Ongoing client

## HOW IT WORKS

01 **Brief.** We discuss your product, audience and deadline. You get a written quote and delivery date.

02 **Direction.** One clear idea, shown as stills. Production starts once you approve it.

03 **Production.** Picture and sound are made together. You review the full cut.

04 **Delivery.** Your changes are made and the film is finished in every size it needs.

## WORKING TOGETHER

Every project is priced individually, with a written quote first.

50% to begin, 50% before final files. Bank transfer, Wise or PayPal.

Three rounds of changes included. NDAs signed on request.

Paid, licensed tools. Full commercial use once paid.
